

World leader in creating comfortable indoor environments, efficiently through the manufacture of custom commercial-use HVAC equipment

Precision air control for data processing centers configuring mission-critical cooling system saving data, energy, & money globally

Toxic and Combustible Gas Monitors

Offering a suite of energy efficient components designed to maximize occupant health, safety, and wellness.

Industrial axial and centrifugal fans, roof ventilators, and controllable pitch vaneaxial fans

Applied thermal innovation in the commercial HVAC industry with a focus on leading-edge technology, energy efficiency, and the environment

The global leader of underfloor air distribution, designed to enhance indoor air quality and reduce energy consumption.

Advanced cleaning technology for removal of grease and odors in ventilation ducts

Manufacturers of radon and air quality monitors for a variety of applications, committed to cleaner air and healthier, more productive lives

Destratification fans

A world leader within the key technology areas of heat transfer, separation, and fluid handling focused on minimizing environmental impact

Laboratory, healthcare, and pressure sensitive critical environmental air flow control. (Formerly Price Critical Controls)

Centralized IAQ Monitoring

Industry standard for packaged pumping systems, integrated plant control, commercial pumps, heat exchangers, dirt/air separators, and more

Steam, gas, and electric humidifiers

Ceiling-mounted UV Air Purifiers and Filtration for Schools and Healthcare

Providing healthier, more productive interior environments with unequalled precision by monitoring and cleaning the air we breathe

Water Flow and Energy Measurement

Electronic space heating products

Air purification and corrosion protection systems for all environments that are engineered for lasting quality, high performance, and energy savings

Supplies high-quality HVAC and water heating solutions with products including tankless water heaters, heat pump water heaters, boilers.

Humidity Control Systems

The BULLDOG Heat Pump System seamlessly combines water-cooled air conditioning and hydronic space heating in a single unit.

Direct-Fired Space Heaters, Make-up Air Units, Evaporative Cooling

Specialty air conditioners for critical electronic system facilities

Manufacturers of commercial and industrial OEM replacement and custom HVAC coils, heat exchangers, fan coils, and belt drive air handlers

Global manufacturers of electric and electrode humidifiers, gas fired steam humidifiers, and direct injection steam humidifiers

InnoFlue® Polypropylene Vent Systems, BlitzFlex® air-intake systems, & accessories for boilers & water heater applications

The leading thermal technologies supplier of heat trace products for process temperature maintenance, freeze protection, and winterization needs

Manufactures desiccant dehumidifiers and critical process AHUs for applications including ice arenas, hospital surgical suites, and food processing facilities

Specializing in unique control products to simplify the integration of VRV/VRF AC systems with Home Automation and BMS control systems.

A leading engineering and manufacturing company of heat exchange equipment and systems for the residential, commercial, and industrial markets

Consistently the first to market with new innovations in venting systems, DuraVent has captured a leadership position in emerging markets.

Products for process cooling water, data center AC, heat transfer, domestic water booster, modular chiller plant, and boiler room solutions

A leader in the water source and geo-thermal heat pump categories providing heating, cooling, and dehumidification on a global scale

Greenheck leads in air movement, control, and conditioning and offers comprehensive ventilation solutions for commercial and industrial markets

A global leader in critical air management requirements in fan wall technology and custom air handling units.

Climate Designers

Offers an extensive range of modern air conditioning & ventilation units designed for commercial, residential, and industrial applications

Specializing in the quick ship of air handling units, coils, direct drives and unit ventilators with high efficiency and sound reduction technology

Gas Detection Systems

Gas Detection Systems

VFDs designed and manufactured for applications requiring ultra-compact solutions, clean power, and with future configurability in mind

High-efficiency heat pump, state-of-the-art ERV, MERV 13 filter, and a bathroom exhaust inside a compact, single-package unit

Manufactures products utilizing UV light to protect your business, extend the life of your air system, and reduce energy and maintenance costs

Spiral Round, Flat Oval, Rectangular Duct

Dust, Mist, Fume Collection

Access Doors - Standard & Fire Rated

One of the nation's leading boiler and water heater manufacturers of more than two dozen heating products, accessories, and controls

Manufacturer of light commercial units from 5 to 15 tons that are the right fit for light commercial applications and retrofit jobs

Industrial and Indoor Pool Dehumidifiers

Global leader in the HVAC industry specializing in advanced systems to optimize efficiency & comfort, offering dehumidifying & air cleaning options.

Airflow Measurement and Control

Fellowes air quality management solutions effectively filter and purify indoor air, creating healthier environments in offices, commercial spaces, and homes.

Variable Refrigerant Packaged (VRP), Units, PTACs, VTACs

The leading global manufacturer of high-quality venting systems for special gas vent applications, specified by OEMs for over 20 years

Roof curbs, Equipment Rails, and Specialty Metal Products

Textile based ventilation equipment

Variable Refrigerant Flow (VRF) Systems, Mini-splits, DOAS, ERVs, Air-cooled Chillers

HEPA Filters, Bag-in Bag-out Filter Housings

MARCRAFT
CUSTOM HVAC SYSTEMS
Custom Air Handlers and Energy Recovery

Boiler, water heater, engine & kitchen / grease duct ventilation systems

Liquid Desiccant Outside Air Systems (LDOAS) for Efficient and Low Dew Point Dehumidification

A world-renowned fabric air dispersion system supplier designed for great comfort, overall even airflow, and precise air throw

Humidifiers, Electric Heaters, Actuators, Actuated Valves, Controls

Designer and manufacturer of commercial/ industrial airflow & pressure sensing elements, room/space pressure monitoring, & control systems

A global manufacturer offering an extensive line of temporary temperature and humidity control products using a sustainable business model

Hydronic balancing valve offerings including coil connection kits, stainless steel flex hoses, steel components, automatic flow limiting, and more

High-quality air-cooled and water-cooled chiller replacements delivered in 2-5 days, minimizing downtime and quickly restoring comfort.

Fluid coolers and evaporative condensers with a focus on weight-saving, low-noise design as a part of the SPX Cooling Technology portfolio

A leading global manufacturer of cooling towers, evaporative fluid coolers, evaporative condensers, and air-cooled heat exchangers

Manufacturers of custom filtration systems, including disc filters and a patented line of stainless- steel liquid filters and strainers

Source Capture Systems, Hose Reels, FRP Duct

Suppliers of efficient vertical and submersible turbine pumps for industrial and commercial markets, meeting diverse industry demands.

Offers practical cooling solutions & superior service, helping customers stay competitive by minimizing water costs, energy expenses, & health risks.

Indoor Air Quality (IAQ)

Manufacturing products to improve the quality and comfort of indoor pool environments with over 45 years of experience in indoor pool dehumidification

Fabric Ductwork and Diffuser Systems

Desiccant and Refrigerant Dehumidifiers

Electric Duct Heater

Vibration Isolation, Seismic Restraint, Floating Floors

DOAS Units, Gas, Hydronic & Electric heaters, Make-up Air Units, Unit Ventilators, CW/HW Ceiling Cassettes

Air distribution, terminal units, fan coil units, louvers, fire/ smoke, control dampers, custom air handlers

Vehicle exhaust, dust & fume collection, & specialty exhaust

A global leader in leveraging its design and manufacturing capabilities to deliver innovative air management for commercial HVAC markets

Corrosion Resistant Polypropylene Fans and Blowers

Laminar diffusers and OR/ Specialty Healthcare Suite Integrated Ceiling Systems

Offering a wide variety of filtration products and skidded pump systems, including sand filters, centrifugal separators, and pump starter panels

Electric Heating Products

Internet-connected building controls used to monitor and control the energy of mechanical and electrical equipment.

Gas-fired infrared radiant heaters-
dry tube system

A family-owned enterprise, that provides
customized energy-efficient infrared heating,
cooling, and air movement system solutions.

Spiral & Specialty Ductwork, Engineered Housings,
Panels and Sound Attenuators

Architectural heaters

High efficiency coalescing-type air
elimination products and dirt separators,
improving water quality in systems across
many applications

Manufacturing an extensive range of fan coils and
air handlers in the global marketplace designed
to provide reliability, efficiency, and longevity

Global leaders in the manufacture of metal hoses,
seismic connectors, and expansion joints in the
HVAC industry with a focus on quick lead times

High-quality custom, packaged and knockdown air
handlers, fan retrofit systems, and new/replacement
coils for commercial applications

Offering a wide range of products including exhaust
fans, ventilation, industrial direct fired, and modular
makeup air systems

Pre-fabricated Outdoor Duct

VAV Diffusers - pneumatic, electronic,
thermally powered

The only air purification system proven to remove
up to 99.9% of harmful fine and ultrafine air
particles in real-world testing.

Indoor pool dehumidification & dedicated
100% outside air units

Industrial, automotive, and commercial equipment
designed for air contaminant solutions using the
most current technology in air purification

Fiberglass, reinforced plastic duct

Passive and active climate beam for cooling and
heating. Creating indoor environments that help
people feel, think, and perform better.

Dual-Core ERV and Semi-Custom
AHUs

Indoor and outdoor duct systems

Pump packages, skids, and domestic water
booster systems with the ability to design and
build for a variety of HVAC applications

Chimney & Venting Products, Kitchen
Ventilation Products

Duct & Pipe Support, Equipment platforms,
Crossover & walkways, penetrating & non-
penetrating bases

Specialty Air Distribution, RoundRegister™,
SpotDiffuser™, Venlouver™

Leading manufacturer of oil-free chillers, using
magnetic bearing technology. Extensive range:
water-cooled, air-cooled, & evaporatively cooled.

High-quality commercial HVAC controls
specialized for zoning, thermostats and unique
controls for the plan and specification market.

Unit Heaters, Duct Furnaces

ERVs and Semi-Custom AHUs from
400 to 65,000 CFM

Packaged cooling and heating units, packaged
heat pumps, energy recovery ventilators, and split
system AC/heat pumps

Custom air handling equipment

Grilles, Registers, Diffusers, Terminal
Units, Displacement Ventilation

A pioneer in commercial air-to-air energy recovery, heat ventilation and 100% outside air units with over one-million installations across North America

Smart Thermostats

Vibration Isolation, Flex Connectors, Expansion Joints, IBC Wind & Seismic Systems

Variable Frequency Drives (VFDs)

Vehicle exhaust fume removal & dust collection systems

North American leader in vibration isolation and seismic restraint for commercial and industrial applications. Noise Control, Sound Attenuators

Manufacturing controllers with a global design that are optimized for Niagra 4 and easy to install, integrate, and deploy

Cable-operated Dampers, Regulators, Controls

Innovative custom air handling solutions for retrofit and new construction buildings working to deliver high quality products for diverse applications

One of the world's leading manufacturers of efficient, reliable, and affordable solar boiler and domestic water heater products

Manufacturers of the original vertical stack fan coil unit and water source heat pump and innovators of air handlers and water-cooled air conditioners

Provides expert heating, ventilation, and air conditioning services, ensuring efficient and reliable solutions for residential and commercial.
